

## QUESTIONS FOR BACTERIA LAB

■ Describe the differences in the bacteria colonies from each of the 4 sections.

- |         |                              |
|---------|------------------------------|
| ◆ size  | ◆ number (how many colonies) |
| ◆ color | ◆ density (how crowded)      |
| ◆ shape | ◆ texture (shiny or rough)   |

■ Hypothesize why each of the 4 sections had more or fewer bacteria than the others.
