

Walk Through The STORY OF TIME AND LIFE

This exhibit exists thanks to the work of many throughout CCSF and San Francisco!

To learn more about this exhibit and see it, fully transcribed, on-line, with a list of references, go to *www.ccsf.edu/TimeLife*.

This project was developed by the CCSF Earth Sciences Department based on and incorporating materials from the California Academy of Sciences (CAS). Contact persons are: Katryn Wiese (kwiese@ccsf.edu) and Darrel Hess (dhess@ccsf.edu).

The Walk Through <u>The Story of Time and Life</u> begins in the south basement lobby of the Science Building. The walls with exhibit panels and posters are marked by *Dinosaur Footprints along the floor!*

Ga = Billions of years ago Ma = Million of years ago Ka = Thousands of years ago

Find below the content displayed on various walls within the building. See *Exhibit Map* (*on back*) to locate the walls referred to below.
