

Brain Midsagittal

A. **Label** the parts of the brain using the following terms.

1. Midbrain
2. Occipital lobe
3. Pineal gland
4. Corpora quadrigemina
5. Cerebral aqueduct
6. Fourth ventricle
7. Cerebellum
8. Medulla oblongata
9. Pons
10. Pituitary gland
11. Optic chiasma
12. Hypothalamus
13. Corpus callosum
14. Thalamus/third ventricle
15. Choroid plexus
16. Right ventricle.

B. **Match** the structures with their function.

- A. Contains colliculi B. Decussation C. Melatonin D. Muscle coordination
E. Connects third & fourth ventricle F. Apneustic and pneumotaxic areas
G. Foramen of Luschka H. Crossing of optic nerves I. Audio-visual reflexes
J. Control of autonomic nervous system K. Connects right & left brains
L. Relay station M. Secretes cerebrospinal fluid N. Contains cerebrospinal fluid in right brain
O. Vision P. Master endocrine gland.

C. Identify the above parts on the diagram and in the models
